

BRAND GUIDELINES · VERSION 1.0 · SEPTEMBER 2026

NEXUS EDUCATION
PRIVATE SCHOOL

Nexus Education Private School

The visual identity system: logo, colour, typography
and the rules that keep every Nexus application
clear, confident and consistent.

TORONTO, ONTARIO, CANADA · [NEXUSEPS.COM](https://nexusseps.com)

CONTENTS

What's inside

Sixteen short sections. Read the logo and colour sections before producing anything; use the quick reference for day-to-day checks.

01 Brand introduction

02 Primary logo and anatomy

03 Logo variations

04 Logo mark and horizontal lockup

05 Clear space and minimum size

06 Correct and incorrect usage

07 Background usage

08 Primary colour palette

09 Supporting palette and proportions

10 Typography

11 Accessibility and contrast

12 Digital and web usage

13 Print usage

14 Social and profile usage

15 File formats and asset directory

16 Quick reference

Clear. Student-focused. Future-ready.

Nexus Education Private School combines student-centred elementary learning with Ontario secondary school credit courses, academic pathways and meaningful support. The identity reflects that balance: an academic crest with real warmth, presented with modern restraint.

Clear Plenty of space, one idea per surface, no decoration for its own sake.

Confident Navy and crest blue lead; gold and orange are accents, never the loudest voice.

Consistent Approved files only. The logo is never redrawn, retyped or recoloured.

NEXUS EDUCATION
PRIVATE SCHOOL

One logo, presented consistently.

PRIMARY LOGO ON WHITE

DARK-BACKGROUND LOGO ON NEXUS NAVY

01

Crest

Graduate with raised arms, mortarboard and laurel wreath

02

Wordmark

NEXUS EDUCATION in Cinzel Bold, crest blue

03

Descriptor

PRIVATE SCHOOL in tracked Gantari Bold gold

04

Relationship

Crest centred above the wordmark; proportions are fixed

Approved versions for every surface.

Primary

Full colour for white and light backgrounds

Dark background

White and gold for navy and deep blues

White / reversed

Solid white for saturated colour and photography

Black

One-colour print, forms and stamps

Grayscale

Two-tone gray when colour is unavailable

On cream

Primary logo on warm tints

Two supporting configurations.

Logo mark

The crest on its own for favicons, app icons, social avatars, watermarks and any square space narrower than 120 px. Never pair the mark with a retyped name.

NEXUS EDUCATION
PRIVATE SCHOOL

Horizontal lockup

Crest beside the wordmark for website headers, letterheads, email signatures, banners and any wide, shallow space. The compact configuration of the brand.

Give the logo room, and never let it shrink too far.

Clear space

Keep a margin of at least **X** on all sides, where X is the height of the graduation cap in the crest, roughly 10% of the logo width. No text, imagery or edges may enter this zone.

Minimum size

VERSION	DIGITAL	PRINT
Primary (stacked) logo	120 px wide	30 mm wide
Horizontal logo	160 px wide	40 mm wide
Logo mark	24 px wide	8 mm wide

Below these sizes the wreath loses definition and the descriptor becomes unreadable. Use the logo mark where the full logo cannot meet its minimum.

The rules that protect the mark.

✓ Do

- Use the supplied SVG, PNG or JPEG files without redrawing any element.
- Keep the crest and wordmark in their approved relationship and proportions.
- Choose the version that gives the strongest contrast on the background.
- Respect the clear space and minimum sizes on every application.
- Place the logo on white, cream, navy, Nexus blue or a calm, darkened photograph.
- Send printers vector files (SVG or PDF), never screenshots.

✗ Don't

Don't stretch or squash

Don't rotate or tilt

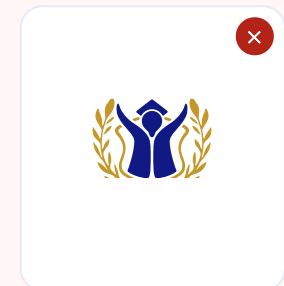

Don't recolour

Don't add effects

Don't use busy backgrounds

Don't crop or rearrange

Match the logo version to the background.

Contrast decides which version to use. When in doubt, choose the primary logo on white or the white logo on navy.

White and light neutrals

Primary logo

Cream and warm tints

Primary logo

Navy and deep blues

Dark-background logo

Nexus blue

White reversed logo

Photography

White logo on a darkened area

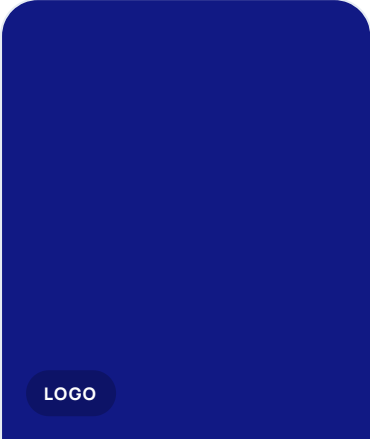

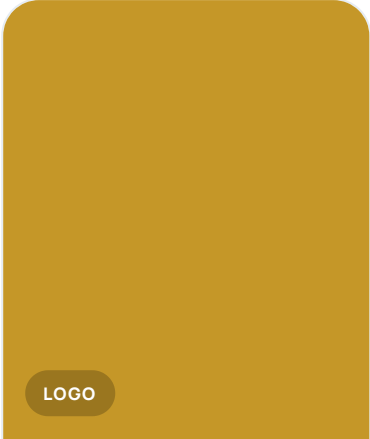

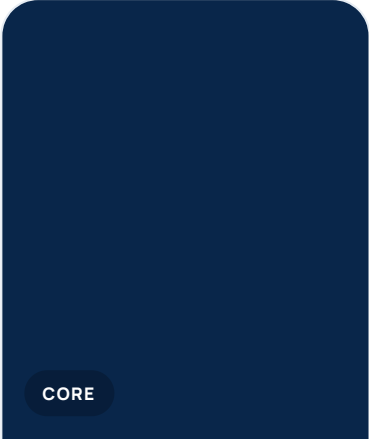

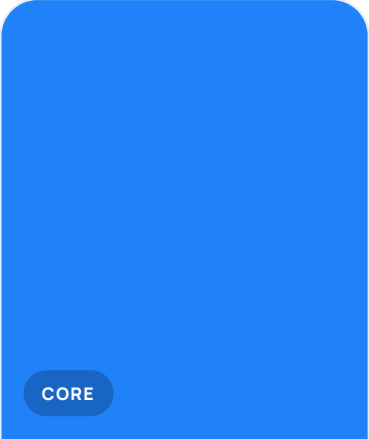

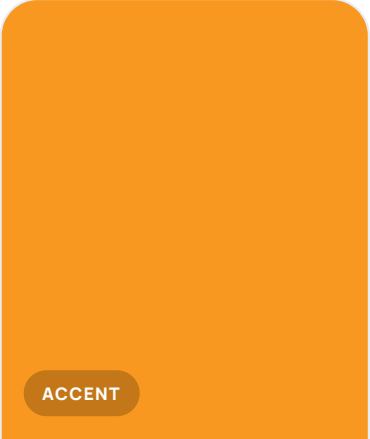

Gray and mid tones

Avoid; use white or navy panels

Two logo colours, three core colours.

Crest blue and crest gold live inside the logo. Nexus navy, blue and orange carry the wider identity across the website, documents and communications.

				
LOGO Crest Blue HEX #111984 RGB 17, 25, 132 CMYK 87 / 81 / 0 / 48 Graduate, cap and NEXUS EDUCATION wordmark. Reserved for the logo.	LOGO Crest Gold HEX #C59728 RGB 197, 151, 40 CMYK 0 / 23 / 80 / 23 Laurel wreath and PRIVATE SCHOOL descriptor. Logo use only.	CORE Nexus Navy HEX #09264A RGB 9, 38, 74 CMYK 88 / 49 / 0 / 71 Headings, dark panels, footer and dark-background logo surfaces.	CORE Nexus Blue HEX #2081F9 RGB 32, 129, 249 CMYK 87 / 48 / 0 / 2 Primary actions, links, highlights and the blue background treatment.	ACCENT Nexus Orange HEX #F99820 RGB 249, 152, 32 CMYK 0 / 39 / 87 / 2 Accents, labels, focus rings and warm highlights. Never for body text.

CMYK values are approximations for standard coated stock. Confirm with a printed proof before large runs.

Quiet neutrals and the right balance.

NEUTRAL White HEX #FFFFFF RGB 255, 255, 255 CMYK 0 / 0 / 0 / 0 Default background and reversed logo colour.	NEUTRAL Cream HEX #FFF7ED RGB 255, 247, 237 CMYK 0 / 3 / 7 / 0 Warm surfaces, callouts and the cream logo background.	NEUTRAL Ice HEX #F3F8FD RGB 243, 248, 253 CMYK 4 / 2 / 0 / 1 Cool surfaces, cards and subtle section backgrounds.	NEUTRAL Neutral Gray HEX #BBBBBB RGB 187, 187, 187 CMYK 0 / 0 / 0 / 27 Dividers, disabled states and the grayscale wreath.	TEXT Ink HEX #1C2B3B RGB 28, 43, 59 CMYK 53 / 27 / 0 / 77 Body copy on light backgrounds.
--	--	--	---	--

Colour proportions

Most surfaces stay white or ice. Navy anchors headings and dark panels, blue drives action, orange appears only as a small accent.

Colour rules

- Never place crest gold text on white; the contrast is too low.
- Orange is an accent, not a text or background colour for copy.
- Do not introduce additional colours, gradients or tints to the logo.
- Website gradients blend navy to blue only; keep them subtle.

Manrope carries the voice of the brand.

The logo's lettering is outlined artwork: NEXUS EDUCATION is set in Cinzel Bold and PRIVATE SCHOOL in Gantari Bold with wide tracking (both open-licence). Always use the supplied logo files; never retype the wordmark.

Legible for everyone, on every surface.

COMBINATION	RATIO	WCAG	USE FOR
 Nexus Navy on White	15.1 : 1		Body and headings
 Ink on White	14.4 : 1		Body and headings
 White on Nexus Navy	15.1 : 1		Body and headings
 White on Nexus Blue	3.8 : 1		Large text, icons and accents only
 Crest Gold on Nexus Navy	5.6 : 1		Body and headings
 Nexus Blue on White	3.8 : 1		Large text, icons and accents only
 Nexus Orange on White	2.2 : 1		Decorative only
 Nexus Navy on Cream	14.3 : 1		Body and headings

Practical rules

- Body text needs at least 4.5 : 1 contrast; large headings and icons need 3 : 1.
- Navy or ink on white and white on navy are the default text pairings.
- Nexus blue works for links and buttons on white; add an underline or icon so colour is not the only cue.
- Crest gold and orange are accents; use them for graphics, rules and labels on navy, not for paragraphs.
- Keep the logo's own colours untouched; contrast is handled by choosing the right version, not by tinting.
- Focus states use a visible 3 px orange ring on the website.

Sharp at every size.

- **SVG first.** Use the SVG files on websites and in apps; they stay crisp at any resolution.
- **PNG at 2×.** Where SVG is not supported, use transparent PNG exported at twice the displayed size.
- **Favicons and app icons.** Use the supplied favicon.svg, favicon.ico, PNG favicons (16–512 px), the 180 px Apple touch icon and the maskable 512 px app icon.
- **Website header.** The horizontal lockup, minimum 160 px wide. The site theme colour is Nexus navy #09264A.
- **Email signatures.** Horizontal lockup, PNG, 220–280 px wide, linked to nexuseps.com.
- **Presentations.** Primary logo on white title slides; white logo on navy section slides.

favicon 16 / 32 / 48 / 64 px · Apple touch icon · navy app icon

Vector files, correct colour, generous space.

- **Artwork.** Supply SVG (or the vector PDF pages in this document) to printers. PNG only when vector is impossible, at 300 dpi or higher.
- **Colour.** Full-colour print uses the CMYK approximations on pages 10 and 11; ask for a proof. Single-colour print uses the black logo; reversed print on dark stock uses the white logo.
- **Sizes.** Primary logo at least 30 mm wide, horizontal lockup at least 40 mm, mark at least 8 mm.
- **Stationery.** Horizontal lockup top left on letterhead; logo mark on the back of business cards; primary logo on certificates and report covers.
- **Signage.** Primary or horizontal logo with clear space of at least X; white logo on navy for backlit signs.

Recognisable at avatar size.

- **Profile picture.** Logo mark on white (or the navy app icon) at 400 × 400 px minimum. Platforms crop to circles: the supplied icon keeps the crest inside the safe zone.
- **Cover and banner images.** Horizontal lockup on white, or the white lockup on navy, with clear space of at least X from every edge.
- **Posts and stories.** Keep the logo small and consistent, usually a corner placement; do not stretch it across the image.
- **Video.** Use the white logo mark as a corner watermark at 60–70% opacity on footage; primary logo on end cards.

Circular avatars at 120 px and 48 px · navy banner with the white horizontal lockup

Which file, and where to find it.

FORMAT	USE IT FOR
SVG	Web, apps, print artwork, anything that scales. The master file of record.
PNG	Transparent placements in documents, presentations and email. 600, 1200, 2400 and 4000 px widths.
JPEG	Solid-background placements only (white, navy, blue or cream). 2400 px, quality 92.
ICO	Legacy browser favicon (16, 32 and 48 px).
PDF	This guideline document; pages can be shared with printers and partners.

File names follow the pattern Nexus-Education-Private-School-Logo-[Variant]-[Size].[ext].
Never rename files when sharing them, and never re-export from a placed copy.

Typography

Manrope ExtraBold 800 headings · Bold 700 emphasis · Medium 500 body. Wordmark: Cinzel Bold + Gantari Bold, outlined in the logo files.

Clear space & size

Clear space X = cap height (~10% of width). Minimum: primary 120 px / 30 mm · horizontal 160 px / 40 mm · mark 24 px / 8 mm.

Rules

- Approved files only; never redraw, retype or recolour.
- Primary on white or cream; white and gold on navy; white on blue and photos.
- Keep proportions, clear space and minimum size.
- No effects, rotation, stretching or busy backgrounds.
